Have 3 or 4 of Pocahontas Countys largest lumber operations that I want to get before I quit the lumbering part of Chapter Seven as this county was outstanding in the lumber industry from early to the present time and I havent dealt with the upper end of the Co.so far but as per your request will finish the lumbering up at once but feel sure I should get the ones mentioned as they were the Countys largest.

The enclosed report was started some time ago but not complete enough to send in until this time.
